The Right Man in the Right Place

[illegible] men can but admire the resolution with [illegible] our new Commanding General of the Pacific [illegible] has entered upon his duties In times [illegible], on this coast, treason loud mouthed has gone unmeasurably unrebuked We are told that in some [illegible] of the country to be known as a supporter [illegible] vernment was to put one's life in peril [illegible] hope and believe that a change has come [illegible] the condition of our people, and that so far as [illegible] Gen McDowell is determined [illegible] public peace, by a little wholesome [illegible] administered whenever and wherever [illegible] He has a large field over which to exer[illegible], but with loyal and efficient co-op[illegible] on the part of his subordinate District [illegible] we have no doubt of his ability to ac[illegible] what he has undertaken

The promptness with which he is arresting trait[ors] in California thus far induces the belief that the fully [illegible] work will be continued until it shall [illegible] found necessary to make arrests for [illegible] The limits of California do not embrace [illegible] who need his discipline, and we hope that [illegible] of treasonable practices elsewhere will [illegible] share of attention We understand that [illegible] contracts for the supply [illegible] commands being awarded to avowed [illegible] from the patronage of the Government [illegible] to oppose it so soon as they get ready [illegible] complaints at least if they are [illegible] charge of programme is do[illegible] are not true, an official de[illegible] and serve to inspire the [illegible] confidence and teach the dis[illegible] no right to expect a share of [illegible] among civilians for services [illegible]

[illegible] taken by Gen McDowell relative [illegible] armed parties of rebels on [illegible] meets the hearty concurrence [illegible] of the loyal public, and [illegible] throughout the Depart[illegible] treasonable demon[illegible] to utterances of loyalty

[illegible] We have received from T F McElroy [illegible] a copy of the "Opin[ions] of the Supreme Court of Washington Territory" [illegible] determined in that Court, from [illegible] to the term ending [illegible] book contains over 250 pages and in [illegible] execution is a credit to any [illegible] we can hardly presume to [illegible] beyond what is justi[fied] by the fact that [illegible] of Washington for the most part [illegible] faithful and competent officers [illegible] have been highly respected by the [illegible] by the community We doubt not [illegible] the book will be of great value [illegible] to those who desire to be of [illegible] of local laws

The [illegible] in currency

[illegible] at West Point, [illegible] McClellan delivered the oration [illegible] in favor of the war and [illegible] went about as far [illegible] of it as Lincoln or [illegible] We hope never again [illegible] McClellan's name being used by [illegible] with the Presidency or any [illegible] candidates or occu[illegible] own expressed senti[ments] [illegible] Mr Lincoln's party.—*Eugene Review*

The foregoing is the sentiment of one o[f] the [illegible] Democratic organs of this State If [illegible] any thing like loyalty, we can't see it And yet the Democrats profess to be loyal [illegible] a member of their party [illegible] exhibit instincts true to treason, they [illegible] like a hot potato

[FROM] GRAND RONDE VALLEY —A correspondent [illegible] writing under date of July 27th gives the following items

Yesterday afternoon, at James Hendershott's in the Grand Ronde Valley, an altercation arose about [illegible] between a man named Smith and a man named Jake Walters, in which several shots were fired resulting in the wounding of Walters, one ball passing through the fleshy part of the ab[domen] and one ball striking the breast and coming out about seven inches from where it entered. The wounds were dressed by Dr E A Stockton of La Grande and are not considered dangerous

The Rev Bishop Scott arrived in town to day from Walla Walla in excellent health He intends [visiting] Idaho City, Boise City and the mining towns generally

NATIONAL UNION COMMITTEE —Hon E D. Shattuck was appointed Oregon member of the National Union Committee by the late Baltimore Convention A primal object of this Committee is to disseminate through the several States any information for the advancement of the Union organization, the members being kept advised by the several State Central Committees The appointment of Judge Shattuck is eminently a good one"

"ON THE WAR PATH"—L F Swart, writing to his friend, Geo Ramsay, at the Dalles, from Ruby City, under date of July 15th says "One hundred and fifty men start after the Indians to-day they are men well armed and equipped and take with them 18 days' rations [illegible] a man among them but what has some private grief to avenge and so you may conclude that they will take but few prisoners A larger number would have gone, but we could not equip them About $2000 was subscribed to defray the expenses of the expedition —*Mountaineer*

ARRESTED FOR TREASON.—William Hall, editor of the Merced (Cal) *Democrat* has been arrested and confined at Fort Alcatraz for uttering treasonable language

Common Schools in Multnomah County

EDITOR OREGONIAN

The undersigned has visited most of the districts and found *ten* public schools in operation in as many districts and two private schools in school in two other districts Four schools in four districts—three public and one private—have recently closed Of six or eight other districts he has yet no account.

Seven of the ten districts visited have comfortable and some of them very neat school houses which are a credit both to the district and to the county Three have rude temporary structures A disposition is manifested by some at least to make the children's *dele(?) house* convenient and attractive yet improvement can still be made in this department even in the foremost districts [illegible] the school houses need shade trees, of which others have a full supply some need curtains to keep the hot afternoon sun from the heads of feverish and weary lads, some need to be ceiled before winter all need outline charts or maps One had no black board until supplied by the teacher In several the seats and desks require remodeling But with all these suggestions, we notice pleasing evidence of interest in attention to the object on the part of the people Often the school house surpasses the farmer's house It is a wise rule to let the former keep pace with the latter There is no finer ornament for a settlement than a neat painted school-house among the trees enclosed in an ample yard, with it number in legible figures over the door

The ten schools visited number only from six to twenty six pupils each, while the average is from five to twenty two Districts suffer because families move from their claims to town for the sake of schools, and because the wealthier class in some cases send their children away to what are called high schools This practice takes from $100 to $1000 or $1500 annually away which might be expended at home with more profit to all parties For instance a girl or a boy has no need to go to an academy until he has completed the Mental and Practical Arithmetic, the four Geographies the Common Grammar, the Common School History, and until he has become a good reader and a good penman *The walls of an academy give him no advantage in these studies, unless it be in outline maps and charts* Usually he learns faster in the district school under a good teacher with his fewer pupils

He comes to his daily task fresher and in better health, from the genial duties of home, than he can from any boarding house or stranger family His vigor of body and mind are better preserved and his morals are under better care at home If he attends the academy, it amounts only to a district school to him because he must pursue the same studies He often annoys and impedes those teachers by his poor reading, writing, spelling arithmetic, geography and grammar lessons for he is expected to know these things before entering the academy Soon his expenses burden parents and his term is shortened, so that he returns home more deficient in the primary and fundamental studies than he would have been by diligent application in the district school If such pupils take higher studies, as philosophy, chemistry, algebra, botany, geology, geometry, rhetoric, logic or music drawing painting, French Latin and Greek they will only acquire a smattering, and will stumble continually because these higher studies are interwoven with and dependent upon the common studies

Academies cannot remedy these evils They must take such pupils as come The only remedy is with the parents and district schools If these latter are kept on the shortest legal allowance of three months in a year, under an ordinary teacher, the high schools will be kept *low*, and lasting injury will be done to the mental habits, if not to the physical and moral health of the youth, who are sent away to half learn, what they can wholly and more easily learn in the district school

This injury can be and it is done at four or five times the cost of the opposite benefit

On the other hand, parents who are wealthy enough to send their children away can use the same money to hire good teachers and keep them longer in their own districts, and what is better, have their children at home If neighborhood bickerings arise, a little forbearance and generosity will usually unite the discordant elements *Let every district resolve to make its own school a first class school Let every voter attend the school meeting with the sole purpose and vote and pay tax enough to put the house in good order and to hire the teacher for six or nine months*

The incidental benefits would be to make such districts popular, to *attract more families*, to transform scattered settlements into thriving and compact neighborhoods, to introduce the blacksmith, wagonmaker and other artizens and laborers, to raise the price of land to open and improve more farms, and to increase tax payers and lighten taxes It is a sign of disease in the system when the blood determines to one part, whether the head or limbs It is a mark of ill-health in the body politic, when the families—its life blood—"all rush to town" A good district school is one of the best correctives of such abnormal tendencies

UP-COUNTRY ITEMS.—From the Walla Walla *Statesman* of July 29th we clip as follows

The Salt Lake stages have not yet arrived at this place It is said that Holliday got the time of starting extended to August 1st.

The weather in this region has resembled the climate of the tropics for the past week and a half—the mercury in that time varying from 100° to 112° in the shade, and from 133° to 115° in the sun.

A difficulty occurred in a hurdy gurdy house at Idaho City last week between Tom Wilson, formerly of this city, and a butcher named Miller A quarrel arose between them about Miller's manner of treating the girls in the house, a fight ensued, and Wilson stabbed Miller in the side with a knife, inflicting a deep and dangerous wound They were separated and Miller went out and procured a revolver He returned in a few minutes, and fired three shots at Wilson, each of which took effect, one in the thigh and one in the shoulder Both men are lying in a critical condition, with a bare hope for their recovery.

We learn from Lewiston that the Democrats of Nez Perces, Shoshone and Idaho counties do not recognize the late convention held in Boise county as a fair expression of the Democracy of the Territory These counties were not represented in the convention, and by a misunderstanding with the Boiseites, called a convention to meet in Nez Perces county about the time that the convention met in Boise. When they heard of the Boise convention (only three days before its meeting) they withdrew the call for their own meeting and now propose to hold a convention in which all the counties of the Territory will be represented Mr. Hill Beachy who was nominated for Treasurer, declines the nomination.

Three men, named respectively, George Goodwin H Wilson and George Brown were arrested at Warren's Diggings, week before last tried and convicted of robbing miners' cabins of gold dust, knives and pistols, and of stealing horses It was also proved that they had laid a plan for robbing Rapson & Co's express The miners held a meeting and were about preparing to lynch them when Sheriff George arrived from Florence and took the prisoners in charge and conveyed them to the Florence jail They are California "birds" and came into Warren's by way of Boise

There are about 600 men at Warren's, all employed and doing well What few miners are at Florence are making good wages, but that camp bears a decidedly dull appearance to former years

We take the following items from the *Boise News* of July 23d

Rumors are rife here of Indian depredations on the Salt Lake road.

Counterfeit gold dust is becoming plentiful in this market, we have in our possession a sample that was played onto a friend of ours

The *Idaho Statesman* is the name selected by J S Reynolds & Co, for their paper, soon to be started at Boise City Their material has arrived and they have it nearly ready to go to work

FROM CANYON CITY —We are informed by Lieut Smith, in command of Capt Spencer's company at the Dalles, that large amounts of gold dust are constantly arriving from Canyon City and that the stages to that section are filled and seats have to be engaged ahead The travel over the road now is considered safe

COMMENCEMENT OF TERM —The "Pacific University and Forest Grove Academy commenced its term on the first Monday in August for boys. The Female Department will not commence the term until some time later

WASHINGTON July 31 —On Friday [illegible] Grant ordered the wagon train of the [illegible] to be taken over [illegible] river [illegible] the place where the 2d corps crossed [illegible] to Deep Bottom where they had a little with the enemy.

The movement of the 2d corps [illegible] to be sent by Lee and the demonstration with empty wagons caused him to send [illegible] large force to intercept the attack from the [illegible] side of the James This feint having [illegible] desired effect, Hancock marched back in to [illegible] ness on Friday night to the rear of the army in front of Petersburg where he was [illegible] serve in front of Burnside's corps which exploded on Saturday morning, the key to the rebel line

Sheridan with a large force of cavalry [illegible] erating yesterday around the rebel right and important results are anticipated from his movement

NEW YORK Aug 1 —The morning papers have nothing later from Petersburg than contained in our dispatches yesterday

We have but few details of which the following are a summary

The [illegible] special dispatch dated before Petersburg, the 30th, says the explosion of the mine was the signal for the discharge of every gun we had in position from the Appomattox to the extreme left The effect was magnificent [illegible] of ordnance were fired simultaneously, and it seemed as if [illegible] all had been discharged by a pull on one lanyard

NEW YORK Aug 1 —The firing thus opened was kept up in the same manner with scarcely a perceptible lull for at least an hour and a half [illegible] slackened somewhat The result of the explosion of the mine was the almost total annihilation of one rebel regiment and buried three guns The 9th corps pushing the advantage thus gained by the suddenness of the assault advanced, taking possession of the works through the gap made by the explosion, driving the enemy to their second line of works which crown the hill tops eastward of the town Nineteen or twenty of the 2d regiment buried by the explosion, were dug out alive but badly bruised Some of them doubtless mortally hurt The mine was 400 feet long constructed with two galleries diverging into the main passage making three chambers in which a train of powder [illegible] inches wide and deep was laid The effect of the explosion was disastrous The enemy's artillery feebly replied But few minutes elapsed before the rebel lines were entirely shut out from view by the smoke, our gunners only being guided in their work by having obtained the proper range before Many of the shell from the 18th corps must have struck far into the streets of Petersburg, for from that direction heavy columns of black smoke arose soon after the firing began, which was evidently the burning of buildings After the rebel lines were pierced, they made a hurried [illegible] to the left and suffered greatly from an enfilading fire [illegible] division, of the [illegible] corps led the attack, the 14th New York heavy artillery having the advance

About one hundred prisoners have been brought to Burnside's headquarters

The cannonading is still very heavy, the rebels holding the position obstinately.

Our infantry have received orders to [illegible] immediately

The *Herald* says that the mine was to have been sprung at 4 o'clock in the morning The Lieutenant General and staff reached Burnside's headquarters about that hour Gen Meade and staff also assembled at the same headquarters The appointed hour for the explosion arrived, but for some reason it did not take place Everything movable was taken away and the troops had been placed in position to move at the first signal The entire corps was held in reserve, but up to the hour of writing had not been called into action At 4 o'clock a cloud of dust seemed rising from the rebel intrenchments, immediately followed by a general upheaving of the earthworks—reaching probably fifty feet in height. The whole mass looked like a huge mountain, and formed a most imposing spectacle Simultaneous with the explosion the batteries along the entire line opened a murderously destructive fire on the rebel breastworks, and the infantry, with deafening cheers, rushed into the intrenchments of the enemy By six o'clock our valiant soldiers had captured and occupied the first line of the rebel intrenchments Prisoners are constantly arriving from the front Several of our wounded are also coming in They report the slaughter inflicted upon the enemy by the explosion, and the accurate range of our shells from the guns and mortars as terrible So far, victory is ours The air is thick with flying missiles, and we are pushing the enemy steadily and surely and occupying his fortifications

BALTIMORE, August 1 —A letter from Fortress Monroe says Later advices from the front show that we are unable to hold all the ground gained in the assault on Saturday, it being mostly commanded by an inner line, and the works taken by our troops were recaptured by the enemy We took 500 prisoners in the assault The loss on both sides was from 1,000 to 5,000

HEADQUARTERS ARMY OF THE POTOMAC, July 31, 9 P M —At half-past 5 this morning a charge was made upon the rebel line, which was carried in a most brilliant style

The 3d division which was in the centre advanced and carried the second line. This time the colored division under Gen White was pushed forward and ordered to charge the enemy on the crest of the hill, which, it was thought, would have decided the contest The troops advanced in good order as far as the first line when they received a galling fire which checked them, and although quite a number kept advancing, a greater portion seemed to become completely demoralized, a part of them taking refuge in the fort, the balance running to the rear as fast as possible They were rallied again and pushed forward but without success The greater part of the officers were either killed or wounded.

The *World's* special at Frederick the 31st says No rebel infantry have crossed the Potomac Three regiments of cavalry, with five pieces of artillery penetrated Pennsylvania as far as Chambersburg Our cavalry under Col Lowell, hold possession of South Mountain also Boonsboro They say the enemy have recrossed the Potomac, that there is no force of rebels now in Maryland

Reports from Emmettsburg and Gettysburg report that a panic exists there and throughout that country, the people believing that the rebels are approaching in force This morning the trains from Frederick came in as usual and bring the report of a great excitement prevailing there, on account of Hunter's order for the expulsion of all rebel sympathizers beyond our lines The train from Sandy Hook arrived this morning There are no rebels on the road

The *Herald's* Washington special says that strong efforts are being made by Republican politicians to induce the Administration to give McClellan command of the defences of Washington

Henry J Raymond is here to urge the matter on the President

SELECT SCHOOL.—By reference to an advertisement in another column it will be noticed that Mr [illegible] Boynton will to day open a private school in the upper part of the Baptist Church edifice, on [illegible] street Mr Boynton has had large experience possesses the best of qualifications as a teacher we believe that he will in the future as in the past give complete satisfaction to all who place their children under his charge

THE EMIGRANTS OF 1864 —Occasionally an arrival from "the States," overland the present season, is noted in our city, and they invariably report an immense number on the way. We are informed by parties from Boise that the emigration is rolling into that region in unlimited numbers, and that the outfits of horses and mules among them is much finer as a general thing than for any previous year. Many of those travelers have brought with them splendid stocks of goods. One man whom our informant met in Boise City, had a stock that cost $30,000 at the starting point and was beginning to feel a rail that no would meet with a losing operation in his bargains. It is perhaps true that an emigrant is pretty green when he first crosses the plains, and is landed in our mountain districts but we have the assurance of one who has tried the matter that they learn mighty fast after they get here and cannot be called as green as pumpkins long. The ideas that are formed of our country, while these persons are on the western prairies are so different from what is realized that very often great disappointments follow. But a year is sufficient to induce them [illegible] superiority of Oregon's climate country and resources for obtaining wealth and instead of hurrying back to the land they have left behind we find them settling comfortably in the new home they have chosen and are repeatedly joined by relatives who were awaiting the evidence. Oregon bids fair to receive large accessions to her permanent population the present year and for the credit of our State we trust each inhabitant will extend the right hand of fellowship, and citizenship, to the new comers.

REVELATIONS OF A NIGHT —A trace of our citizens, who had been sojourning at one of the numerous saloons until near the witching hour of night, a short time since, started for their [illegible] rather over joyful, and having to pass the [illegible] in a diagonal direction concluded they would go through the park and thus avoid the distance around. They entered the north east gate but either the darkness of the night, or a preponderance of liquor had a tendency to sway their course, and instead of reaching the opposite gate they drifted to the main line of fence and all efforts to attain the desired locality only bewildered them the more, and the hunt for egress was prosecuted several hours in a fumbling [illegible] manner when just about the time the morning stars began to glimmer one of them broke forth with "Eureka" [illegible] meaning for a Greek word signifying 'I have found it' and the pair resumed their walk homeward declaring that it was the duty of the Common Council to have the gates white washed so man could see them in the night.

THEATRICAL — Mr St Clair who has just returned from California has secured Willamette Theatre in this city, for a theatrical engagement which will commence shortly after the arrival of the next steamer, with Mr and Mrs Irwin as the leading performers. These artists are originally from the Eastern [illegible]. On their overland journey to California they played at Denver, Salt Lake City, Virginia [illegible] with great success. In San [Francisco] [illegible] reported they pleased very large audiences at the Academy of Music. We are informed [illegible] appreciating scene in Portland will [illegible] delightful and interesting to the [illegible] play. Mr Waltron who is at [illegible] country will possibly return in [illegible] and the Willamette will be a live Theatre [illegible] of talent never before surpassed, [illegible]

OREGON BUTTER —The manufacture of an excellent quality of butter is of easy accomplishment in [illegible] and we are pleased to note the great improvement that is being brought about in that particular branch of the farmer's trade. We have now [illegible] superior brands in our market, among which [illegible] that from the dairy of R. A. [illegible] island. We have tested samples [illegible] this article sent to us by O'Connor & Co who [illegible] this city for the sale of Clark's butter, [illegible] never butter produced in former years is well calculated to cause a hearty congratulation at the desirable progress. There is not the least reason for using stale butter, brought from the Eastern States any longer, on our tables, and the farmer as well as the city denizen, will profit by the change.

REORGANIZATION OF THE BETH ISRAEL SCHOOL. We are informed that the Beth Israel School [illegible] community, is undergoing a re-organ[ization] [illegible] purpose the congregation under [illegible] school is managed, make efforts [illegible] teachers within reach as may be [illegible]. To have the proper chances [illegible] the former management continue [illegible] the expiration of this quarter. An unexpected disappointment however renders the immediate change necessary. From among the number [illegible] the most efficient and accomplished [illegible] will within a few days, be chosen, so that [illegible] no doubt but that the school will fully [illegible] merit the confidence which it hitherto has, to so considerable a degree, enjoyed.

THE PLAGUE OF FLIES —Every important era in the history of man has been attended by some remarkable circumstance over which it was impossible for mortal being to have any influence or control. History abounds in such instances, among the most remarkable of which are those recorded in the good book just prior to the deliverance of the Jews. It is not impossible that the unusual number of flies with which, so far as we can learn, the whole country is infested and which, to use a mild expression, are very annoying have something to do with the great moral revolutions now going on in connection with the war. If the descendants of Ham are in any way implicated in the fly pestilence, we hope the Ham may be speedily cured and shipped.

IMPORTATION OF THIEVES.—We were informed by passengers on the *Wilson G Hunt* last evening, of a pocket-picking affray that occurred on the boat coming down from the Dalles yesterday in which a "slippery" fellow effected the purloining of about $40 from the pocket of a fellow passenger, but was made to disgorge before their arrival here, and the matter was "hushed up." We have good authority for stating that several gangs of thieves have come into our midst lately, and our citizens will do well to be on the look out for them. Some of them are already "spotted."

SELECT SCHOOL.—By reference to advertisement in another column it will be noticed that Mr G F Boynton will to-day open a private school in the upper part of the Baptist Church edifice, on Fourth street. Mr Boynton has had large experience, and possesses the best of qualifications as a teacher and we believe that he will in the future as in the past give complete satisfaction to all who place their children under his charge.

GOING EAST —Among the passengers leaving our city by the steamship to day, are to be found Capt D F Bradford, and family, who go on a visit the Bay State of Massachusetts, for a time. The best wishes of our citizens attend them and we are sure that the interests of our young and rapidly developing State will not suffer by the representations of so public spirited a gentleman as Captain Bradford.

FAST DAY SERVICE —In accordance with the President's Proclamation appointing Thursday the [illegible] inst, as a day of fasting and prayer, there will be divine service in Trinity Church at 10 o'clock A M. The minister in charge of St Stephens Chapel, desires its members to worship with the former.

THE SHIP YARD — Business appears active at the ship yard in East Portland, and the signs indicate a re action in some portions of our river trade by the coming fall. A new sloop was launched a few days since and Captain Turnbull's new steamer is getting well on the ways for rapid completion.

VAULT FOR ALBANY —A large iron vault was trans shipped in this city a few days since for the safe keeping of the archives of Linn County in a new Court House that has been erected in Albany during the past season.

DELAYED —In consequence of heavier freight than was anticipated, the hour of departure for the steamship *Oregon* to day has been changed. She will sail at 10 A M for Victoria and San Francisco.

THE BOAT RACE —The late sailing match at the mouth of the Columbia river between the schooner [illegible] and pilot boat [illegible] describes the fastest sailing, perhaps ever accomplished [illegible]

[illegible] complete turn [illegible] political [illegible] has taken [illegible] the Baltimore platform [illegible] both [illegible] the Declaration of Independence that all men are created equal [illegible] devotion to the Union of these States [illegible] Mr Lincoln at Baltimore simply apply these principles now become [illegible] the [illegible] of the country [illegible] the Baltimore platform.

[illegible] appears to have given general satisfaction. The plank [illegible] fully expressed. The utterances with regard to [illegible] the Administration whose clear language appears [illegible] to delight the better portion of the [illegible] who seem to interpret it by the action of the Convention in admitting the Missouri delegation. The resolution which says that harmony should prevail in the national councils is now generally regarded [illegible] which the President may take into consideration when he comes to fill up his Cabinet for the second term. This was probably the [illegible] wording is unexceptionable [illegible] the sentiment on the Monroe doctrine [illegible] Mr Seward and therefore to the Administration, we do not [illegible] in that light. It is simply a reiteration of the views which Mr Seward has all [illegible] to the French Government [illegible] the real position of the United States Government. And their adoption in a popular gathering [illegible] character only adds force to his representations which he would [illegible] characterize as [illegible] by the legislative branch of the Government [illegible] diplomatic [illegible]. On the whole the Baltimore platform is every way worthy of the Convention and [illegible] in other [illegible] —*Hartford* [illegible]

PRECAUTIONARY —We notice that since the late fire in Salem, the different localities in the upper country are almost unanimously moving towards the adoption of preventive measures against the spread of a conflagration should such a misfortune occur.

EVERY FAMILY SHOULD HAVE A SEWING MACHINE, and [illegible] the many styles now before the public none combine so many excellent features as the Grover & Baker. We find this machine alone adapted to the elegant embroidery which has become so popular this season — which advantage, aside from all others, is sufficient to commend it to ladies contemplating purchasing a sewing machine.

The Agent J W T Pierson, is always pleased to show the ladies the merits of the machine.

Oregonians should test the merits of Dr. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of ague, bilious of the digestive organs and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitters, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy26daw

The Contrast

We sit at home [illegible] feel that they
Who fight upon [illegible] distant plain
Are falling faster day by day
A harvest of the [illegible]

We lightly walk the busy street
Where [illegible] and [illegible] roll swiftly on
They march a battle field to greet
And die as it is won

The trumpet call [illegible] the night
To die for freedom and the [illegible]
Of cannon from the fortress' height
Still calls them to the [illegible]

Unmoved we read [illegible] they fell
To shed [illegible] shame
Daunt life through [illegible] shot and shell
In the red battle flame

Brave hearts are resting for us there,
All [illegible] feverish breath
This hour what [illegible] prayer
Is said for you, [illegible] death!

They lie upon the [illegible] hill
Or blackened plain in dread [illegible]
They rest eternal [illegible] Never will
They wake, like us to weep

We rise each day to weary toil
And hourly strife—their work is done
Their blood will course into the soil
Their lives so nobly won

THE "BUSHWHACKER" AT HOME.—A correspondent who evidently understand the habits and character of the animal well, thus delineates a rebel bushwhacker

It would require an artist of superlative [illegible] to paint to you the bushwhacker as he [illegible] He comes from the dregs of a degraded population He cannot write his name His [illegible] is a mixture of falsehoods and un[illegible] [illegible] in the worst English [illegible] white men, and apparently cul[illegible] the corruptions of plantations [illegible] He belongs to a gang of from two to forty in number His family occupy [illegible] remote from the highway, or the [illegible] of several throng together, and oc[illegible] the large house by the wayside, of some [illegible] rebel He never owned a nigger, [illegible] may have been a nigger driver on some [illegible] plantation He has a sandy [illegible], has few whiskers a number of [illegible] dirt colored hairs that grow straight [illegible] he seldom washes his hands or [illegible] his hair He visits his wife, a woman [illegible] dirty and ignorant as himself, and [illegible] tobacco and dips snuff, as [illegible] sure for him to do it, the bal[illegible] time he spends in the brush, or [illegible] robberies on unprotected Union [illegible] He has a leader a little more in[illegible] and a little more daring than him [illegible] of them dare not attack three [illegible] but they will go to the house [illegible] has a little money, and tor[illegible] him over a fire of fire, or pull[illegible] his toe nails with bullet moulds, [illegible] where his treasure is con[illegible] robbery completed, they re[illegible] rendezvous His fare is the [illegible] coarsest—a shoat which lives [illegible] the woods, which is lank, poor, [illegible] which is brought down [illegible] badly dressed, boiled to rags, and [illegible] little corn bread. He has [illegible] dogs, and as many dirty, [illegible] children lives in wretchedness, squalor [illegible] But he is good judge of a horse [illegible] superior in speed and bott[illegible] of his pursuers, and it [illegible] Kentucky or Louisiana [illegible] akin to him, but his more daring [illegible] friend when the leaves are [illegible] effectually hide the [illegible] in some ravine, [illegible] His arms are a big [illegible] navy revolvers, and a rifle [illegible] possibly a carbine cap[illegible] soldier, whom he has [illegible] ped His original uniform [illegible] suit of butter nut but [illegible] blue coat or pants, [illegible] and fiendish butchers [illegible] ammunition through some [illegible] Provost Marshal; says [illegible] takes the oath and obtains [illegible] arms, including, of course [illegible] powder and lead. [illegible] LAST INTERVIEW WITH BRECKINRIDGE [illegible] never forget my last interview with John C Breckinridge It was on the [illegible] of the 9th of August, 1861, being the [illegible] of the memorable called session which was assembled on the 4th of July of that year by Presidential proclamation. Wide[illegible] had differed, our personal relations [illegible] changed He knew how sincerely [illegible] I was, when, as early as 1858, he at[illegible] Buchanan and the extreme South to [illegible] him into the support of Lecompton, and [illegible] reluctantly, in the black and bitter years [illegible] followed, I felt constrained to denounce [illegible] In the called session he had led the [illegible] tion to Lincoln with vehement, unjust [illegible] ability And now he was [illegible] to Kentucky "Good bye," he said, "[illegible] bye" "No, I said, "not 'good bye,' Breckinridge, but farewell You will never again take your seat in the United States Senate" He seemed to be surprised, as he said "What do you mean? I will undoubtedly return to my post in December." "No, my dear sir, you will follow your doctrine into Confederate army, and you will go there to show that you are with the enemies of your country." To which he answered, and when he spoke the words I think he was honest "If I go over the lines, it will be to bring back with me my run-away son Cabell, who has gone into the army wholly against my will But we shall meet, if we live, in the Winter" "I wish it could be so, my friend," was my reply, "but still I feel that your 'good bye' will be a long farewell" And this was the last of John C Breckinridge His oath to support the Constitution of the United States, like Hester Prynne's scarlet letter, burns an eternal reproach on the record of the Senator His sword is with slavery and rebellion.—*From a recent letter*

It is well known that the medical effect of Protoxide of Iron is lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron, without further oxidation has been deemed impossible.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over estimate its influence as a remedial agent It has been considered the most useful article in Materia Medica by many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a [illegible] process which enabled him to dissolve

PURE IODINE IN PURE WATER.
